		2.2	Administer first aid to a casualty who has inhaled cold vapours
		2.3	Administer first aid to a casualty who has hypothermia

Assessment methods

Candidates are assessed for this qualification using the following methods:

- Multiple-choice question paper

Multiple-Choice Question paper

Each candidate will be assessed for this qualification by the completion of a multiple-choice question paper.

Candidates will be required to score a minimum of 70% correct answers to achieve a pass.

Reasonable adjustments

All candidates must be capable of dealing with an incident involving a cryogenic burn.

This is a knowledge based qualification and the assessment is in the form of a multiple-choice question paper. Where a candidate will be disadvantaged by this form of assessment, adjustments can be made to ensure a candidate can be assessed by a more appropriate method.
