## Units of assessment

### Unit one title

Undertaking fire risk assessments in low risk workplaces

*Learning outcomes:*

*Assessment criterion:*

*The learner will:*

*The learner can:*

1	Understand how a fire risk assessment can contribute to a safer work environment	1.1	State the main causes of harm in relation to workplace fires
		1.2	List the main costs associated with a fire in the workplace in relation to employers, employees and the wider society.
		1.3	Outline the duties and responsibilities of employers, employees and others with respect to fire safety
		1.4	Outline how fire safety legislation is enforced and the penalties for non-compliance.
		1.5	Describe the legal provisions for undertaking and implementing a fire risk assessment
2	Understand the principles of a fire risk assessment	2.1	Describe what is meant by the term 'risk assessment'.
		2.2	Outline the necessary competencies of a fire risk assessor.
		2.3	State sources of advice and information that can support the undertaking of a fire risk assessment.
		2.4	Describe the stages involved in a typical workplace fire risk assessment.
		2.5	Outline the requirements for recording, monitoring, reviewing and revising fire risk assessments.
3	Complete a fire risk assessment of a work environment	3.1	Identify hazards in relation to a fire in the workplace
		3.2	Identify those that may be harmed by a workplace fire and how this harm may occur
		3.3	Evaluate the level of risk created by fire hazards
		3.4	Suggest appropriate controls to reduce the risk of a fire in the workplace to an acceptable level
		3.5	Record the findings of the fire assessment
4	Complete a fire risk assessment report	4.1	Produce a report outlining hazards and controls identified within a fire risk assessment
		4.2	Justify the reasons for implementing recommended control measures.

## Assessment methods

Candidates are assessed for this qualification using the following methods:

- Multiple-choice question paper
- Portfolio of evidence

## Multiple choice questions

There is a single multiple-choice question paper. Candidates must achieve a minimum of 67% to pass.

## Example question

An example of a **direct financial cost** associated with a fire at work would be:

- A** Bad publicity
- B** Payment of fines
- C** Low staff moral

## Portfolio of evidence

Candidates need to complete a fire risk assessment of a simple workplace. The risk assessment should be supported with a report outlining the recommended controls.

The risk assessment is ideally undertaken in a real work environment. The assessment should consider the potential fire hazards within the property.

Candidates will need to complete a fire risk assessment. A template form is provided.

A report should also be developed. This report should outline the fire hazards identified, the controls recommended and a justification for these.

## Reasonable adjustments

All candidates are required to complete the assessment criteria in a manner appropriate to the purpose of the qualification.

The prescribed assessment methods for this qualification should not unfairly disadvantage candidates, who would otherwise be able to demonstrate competence in the assessment criteria and in line with the purpose of the qualification.

If you feel the assessment methods above would disadvantage you please contact your centre to discuss reasonable adjustment.
